Overland Park, KS 66204

Dear Dental Partner,

Welcome to Share a Smile, and thank you for joining us in our mission to save lives.

As an oral health care provider, you are often the first line of defense in recognizing the warning signs of oral and head and neck cancers. Your expertise can lead to earlier detection, faster intervention, and better outcomes. You also play a critical role after diagnosis, helping patients address urgent dental needs so they can begin cancer treatment safely and without delay.

For low-income patients, however, access to this specialized dental care can be out of reach. Many face impossible choices between paying for food, housing, transportation, or the dental treatment required before cancer care can begin. Without timely oral health care, patients may experience delayed treatment, serious infections, difficulty eating or speaking, and other devastating complications that can affect their recovery, quality of life, and survival.

Share a Smile was created to help change that.

By becoming a Share a Smile Partner, your practice is joining a community of dental professionals committed to removing financial barriers and helping more patients receive the lifesaving care they need. Every donation your patients make helps provide specialized dental treatment and essential support to individuals facing head and neck cancer during one of the most difficult times in their lives.

Inside this activation kit, you will find everything you need to get started. Our goal is to make Share a Smile easy for your team, meaningful for your patients, and truly impactful for the families we serve. If you have questions or need additional materials, we are here to support you every step of the way.

Double Your Impact

Your practice can make an even greater difference by matching every dollar donated by your patients. Together, you can help ensure that financial hardship never prevents a patient from accessing the lifesaving treatment they need.

Thank you for partnering with HNC Living Foundation. Your compassion is helping restore smiles, remove barriers to care, and save lives.

With gratitude,

Danielle Puzio
